

4TQExplorer

Control & Align Easily

4TQExplorer delivers the Process based (or horizontal) view of an organization showing the process-based linkages from executive management to the customer. **4TQExplorer** unlocks the organization's process structure by utilizing the process knowledge captured with **4TQFlow**.

4TQExplorer's role is to manage, deliver and enhance your company's overall operational knowledge and information. **4TQExplorer** exploits the Process/sub-process layered framework developed with **4TQFlow** to provide you with a new way to view and manage your organization.

4TQExplorer provides a unique perspective to show, for the first time, a processed based view of the interrelationships between business functions and the layered processes that must work together to successfully fulfil the customer's requirements and expectations.

4TQExplorer allows you to map the whole organization, linking in Policy, Process and Performance information in a coherent and easy to use single tool.

4TQExplorer saves time and reduces the compliance cost with automatic creation and maintenance of the Multi Compliance system matrix.

4TQExplorer reduces the administrative effort needed to manage your Review Auditing Schedule with **4TQExplorer's** automatic monitoring of Audit Review Schedule.
