

# 4TQLink

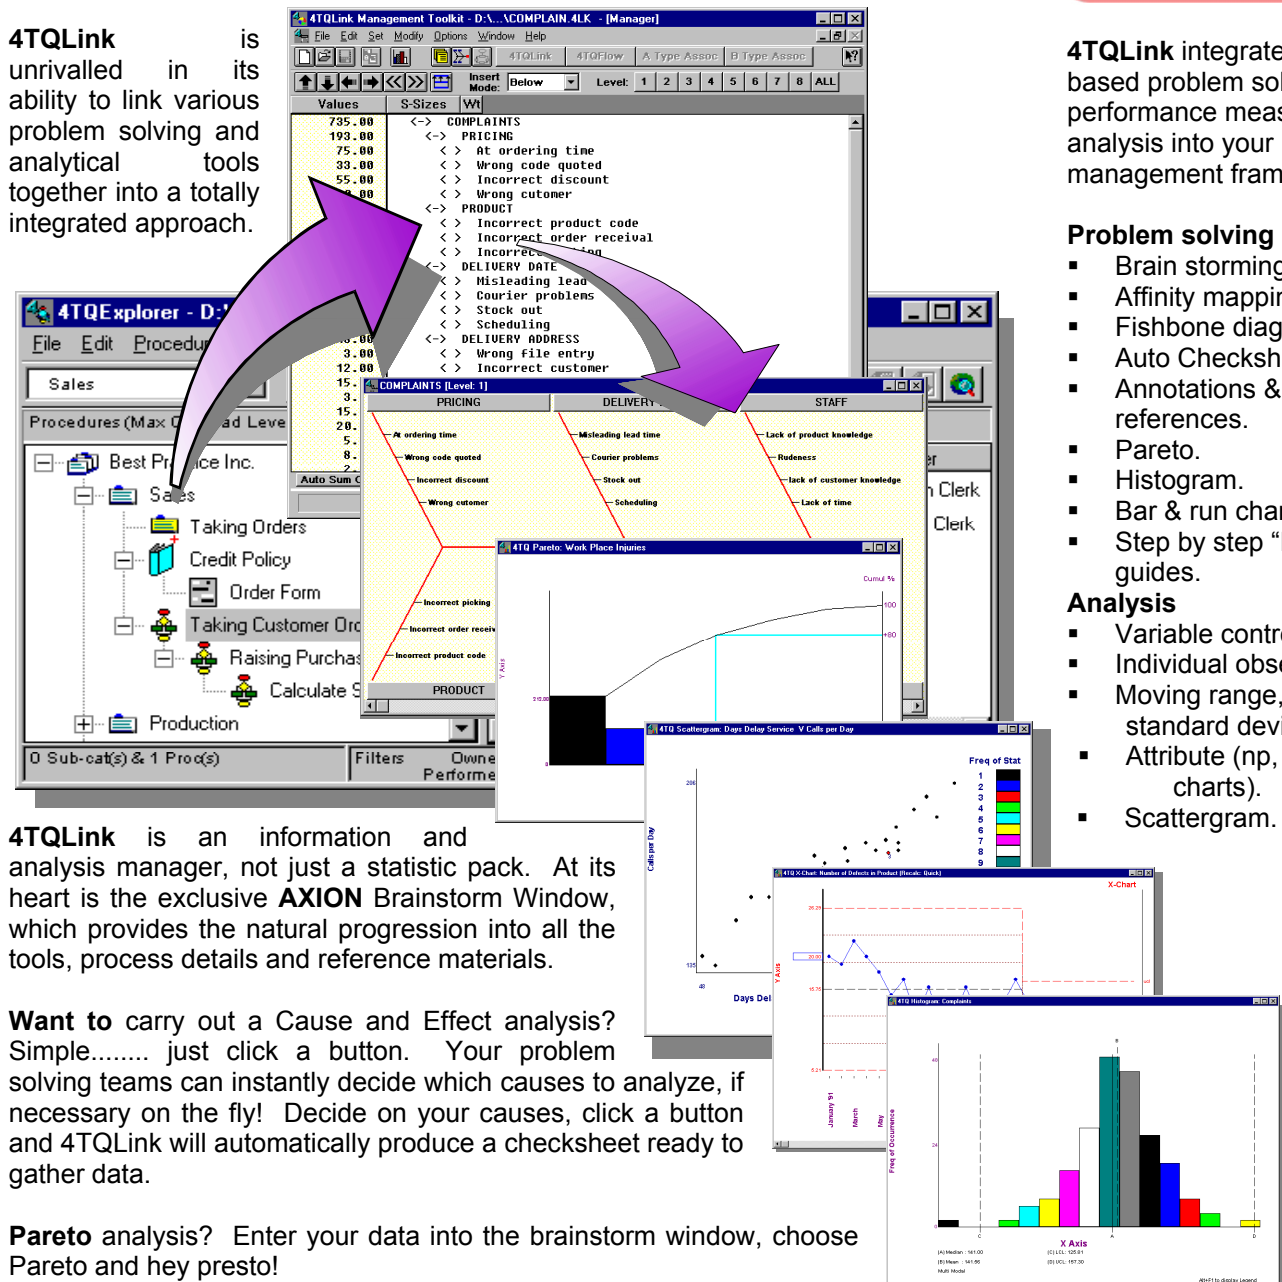

## Improvement Confidence

Having trouble establishing meaningful key performance indicators? Not sure where to start or what the real issues are? From boardroom to shop floor, command your organization's performance in total alignment with the actual work processes. Directly linking your **4TQLink** Key Performance measures into the **4TQExplorer** framework ensures that the measures are both meaningful and appropriate at each layer.

Taking command of your organization's results and implementing a truly useful process aligned, drill down, performance & appraisal system has never been easier!

**4TQLink** is unrivalled in its ability to link various problem solving and analytical tools together into a totally integrated approach.

**4TQLink** is an information and analysis manager, not just a statistic pack. At its heart is the exclusive **AXION** Brainstorm Window, which provides the natural progression into all the tools, process details and reference materials.

**Want to** carry out a Cause and Effect analysis? Simple..... just click a button. Your problem solving teams can instantly decide which causes to analyze, if necessary on the fly! Decide on your causes, click a button and 4TQLink will automatically produce a checksheet ready to gather data.

**Pareto** analysis? Enter your data into the brainstorm window, choose Pareto and hey presto!

**Want to** progress into more advanced statistical methods? Let **4TQLink's** powerful statistical analysis tools do all the work. No more messy spreadsheets or complex difficult to develop data bases.

**With the 4TQLink** statistical tools you can be confident that statistically valid results will always be shown. A unique logic ensures you always use the correct distribution for sample groups. Multiple charts allow "what if" scenarios to be conducted. Runs, trends are automatically highlighted. Special cause present? Let **4TQLink** allow you to remove it and compare the before and after, on screen, immediately.

## Features

**4TQLink** integrates ISO9004.4 based problem solving, performance measurement and analysis into your process management framework.

### Problem solving

- Brain storming.
- Affinity mapping.
- Fishbone diagrams.
- Auto Checksheet.
- Annotations & external references.
- Pareto.
- Histogram.
- Bar & run charts.
- Step by step "How to" guides.

### Analysis

- Variable control charts.
- Individual observations.
- Moving range, range, standard deviation.
- Attribute (np, p, c, u control charts).
- Scattergram.
